I cant even come up with the words to say how shocked I am and saddened by the loss of Kathy, and how quickly she left our world... I will miss her. We spent a wonderful week out in Frankenmuth a few years ago. She introduced me to the world of wine tasting, the joy of living it up at the arcade again at our age, and great food that week. We helped each other get through a rough patch in each of our lives and I will always be grateful to her for that. Of course at work she was my savior many times when I got stuck or wasnt familiar with the procedure. I wish I would of gotten the chance to say goodbye, you will always be in my heart sweet sweet Kathy

I have worked with Kathy for 10 years and considered her part of my extended family. My son Zachary and I still are in shock and devastated of her loss. Kathy was one of the most kind hearted generous people I know. She was my shoulder to cry on and my ear to vent and talk with. I am so glad I got to visit her in her last days. Everytime I see a penny I will think of her. I love you my friend. I miss you at work everyday and will never forget you. Fly high. It's Goodbye for now until we a reunited again.

Rachael T. I had the pleasure of working with Kathy! My experiences in a ortho office will never be the same without her. She was hardworking, dedicated to her patients and was the ULTIMATE team player! She never left a coworker behind and always did more than her share of work. Her laugh always made me smile! The office atmosphere will be forever changed without her presence. Her family should feel nothing less than pride for the extraordinary impact her spirit had on so many.

I'm going to miss Kathy so much. She trained me how to do ortho, which I still do today. She was always a bright light in the office. We've known each other for 20 years and I was always happy to see her face. I hope you're with Odie. That's the way I want to see you. I love you Kathy and I will miss you so much. You know we had a connection because of our loss of our husbands. Hopefully will have a connection in heaven also.
